

Basic Financial Management for Not-For-Profit Organisations

*Identify processes that will help to
find a way through the financial
maze that confronts organisations in
the Not-For-Profit sector.*

This training is ideal for anyone new to financial management of a not for profit organisation. This one day workshop provides an overview of the financial information non-profit organisations need to know. Ensure your organisation is meeting all of its financial requirements.

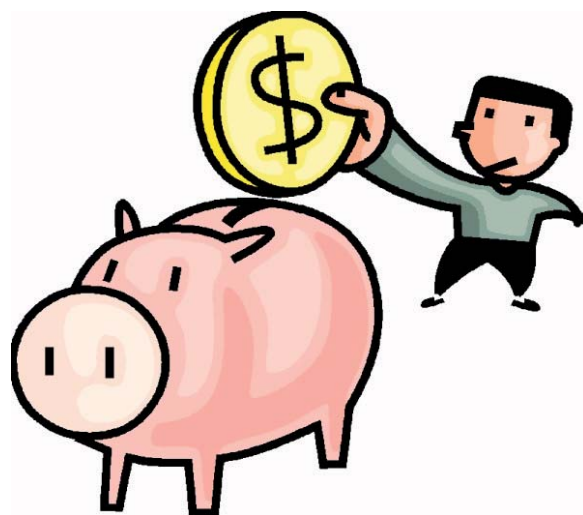

It will outline some key tips on how to find a way through the financial maze that confronts organisations, both big and small, in the not-for-profit sector.

What does it cover?

- The need for accountability
- Employment
- ATO requirements and concessions
- Basic accounting concepts and understanding financial reports
- Committee responsibilities
