## Insecure Work Inquiry

The ACTU are currently conducting an independent national inquiry into insecure work, being chaired by Brian Howe.

Around 40% of workers are involved in insecure work arrangements such as casual work, fixed term work, contracting or labour hire. Most of these workers don't have access to the same rights as permanent workers, earn less, have limited access to sick or holiday leave and can lose their jobs with little to no notice without redundancy. For many Australians insecure work is not a preference – it's all they can get. [Click here](#) to read more

The Conference, a premier national event for policy-makers, researchers and those engaged in social services or advocacy, will in 2012 have the theme 'Sharing the wealth of the lucky country'.

Australians' material wealth is booming but the proceeds are not being equally shared. New research shows that inequalities are rising in Australia. While the post-tax income of the poorest households is actually falling, the richest Australian households continue to earn more and more.
