WACOSS 2017-18 Pre Budget Submission Consultations and DropIN Space

WACOSS would like to thank all those who have attended the consultations held for our 2017-18 Pre-Budget Submission over recent weeks. The advice received within these forums is invaluable to ensuring the sector's most pressing and emergent issues are presented to Government as priorities, and WACOSS is extremely appreciative of your valuable contributions thus far.

Summaries of the four sector-based consultations held will be available for viewing and comment on the WACOSS Pre-Budget Submission at our [DropIN Space](#). Here you will be able to read the conversation amongst the sector so far, and provide any further comments, suggestions, proposals or case studies you may have that can better inform this year's Submission, and the community sector's 2017 Election Policy Platform. Visit the Space over the coming week to join the conversation.

Our last [Pre-Budget Submission](#) can be found here.

Please contact Demelza Demelza@wacoss.org.au or call **9420 7222** if you have any questions.

COSS Submissions on Data Linkage and Competition Policy

The State COSSes and ACOSS have provided a joint Submission to this inquiry, which can now be accessed and read [here](#).

The Productivity Commission will release a draft report later this year, with a final report to be delivered to Government in March 2017. Further information is available through [the inquiry's web page](#).

WACOSS have also provided an independent Submission to the State on the WA Data Linkage Review - [Click here](#) to read this Submission.

We have also contributed to the ACOSS submission to the [Productivity Commission Inquiry into Human Services](#).

This is clearly an emerging issue for the sector, with clear signals from the Federal Treasurer that they are looking to extend competition in human services as a cost-cutting measure. We are concerned that further marketisation of community services may lead to reductions in service quality, cherry-picking of profitable clients and the 'churn and burn' of more difficult ones by for-profit providers, as we have already seen in some service areas (eg. job services).

This is the first stage of a longer inquiry. We await the release of a draft report from the Productivity Commission in September and will then be looking to hold a roundtable to discuss our response.

View the [ACOSS Submission](#) here. If you are interested in taking part please email Demelza@wacoss.org.au

New and Improved Online Emergency Relief Directory

Major changes in Emergency Relief funding have made it more challenging for ER agencies and the wider community to know what support is available and where they can go to get it.

Thanks to Lotterywest, WACOSS launched the State's first interactive online directory of services on **April 6th 2016**. This directory is for use by the sector, and was requested by the State Emergency Relief Committee as a means to address the ongoing challenge many organisations have of keeping up-to-date information on other agencies and their resources to support service referrals. The Directory will be integrated with the [DropIN](#) platform, meaning that agencies will not need to create a new log in account for yet another new system, and will allow agencies to update their service information in real time.

For more information, or to put your agency on the invite list, please contact **Bernie Fisher** at bernie@wacoss.org.au or by calling **9420 7222**

ASeTTS Keys to Diversity Training Programs

People working with migrants and refugees now have access to two new online resources to help them better understand their clients, and better meet their clients' needs.

Unlocking Cultural Diversity is a six-part program that uses personal reflection, family history and migrant stories to prepare staff and volunteers to work in a culturally aware and culturally secure way with people of any cultural background.

Working Effectively with People from a Refugee Background is a four-part program that uses powerful refugee testimony and a range of engaging exercises to prepare staff and volunteers to better understand the backgrounds and special needs of refugee clients.

The resources have been trialled by four regional and nine metropolitan organisations and feedback has been very positive. ASeTTS engaged Fortis Consulting to develop and deliver this online project working closely with the Office of Multicultural Interests, WACOSS and a Reference Group representing a wide cross-section of community and Government organisations.

Try the courses for yourself at www.keystodiversity.com.au. For further information contact executive@asetts.org.au.
