WACOSS Emerging Issues Seminar

WACOSS is holding its second annual Emerging Issues Seminar on Thursday 1st April 2010.

The 2009 event was highly successful and was an important tool in assisting organisations with strategic planning.

The seminar will provide a comprehensive overview of the most important emerging trends and issues that will affect those needing services and the community services sector in 2010.

The seminar covers six key topic areas: economic, policy / political, social, environment, services and service delivery.

Delivered by WACOSS senior staff and guest speakers, the seminar provides detailed up-to-date information which assists all organisations in planning for and responding to these critical issues.
